

# **Twitter Chat: #cogscichat**

## **Thursday, December 11, 2018**

### **7:00 pm Mountain time**

To take us into the final exam for “Foundations Of Cognitive Science” (PSYCO 354), I am planning to have an hour long twitter chat. I’m hoping that participants can raise issues about course content as they get ready for their final. As was the case for our first chat before the midterm, I’m interested to see whether twitter can be used as a medium for answering questions that you might have prior to the Final exam, or for exploring issues related to cognitive science in general.

#### **When**

- Next discussion time: 7:00 pm Thursday, December 11 as agreed in class
- Use twitter hashtag #cogscichat
- The chat will last for an hour after the start

#### **Who**

- Show up and tweet. See below if you do not have a twitter account.
- Class members invited, but all are welcome

#### **How**

- If you have a twitter account; search hashtab #cogscichat and make sure to include "#cogscichat" in all your tweets.
- If you don't have an account, but would like to watch what is going on:
  - Go to <http://twitter.com/search>
  - Search for #cogscichat
  - Make sure that you choose to display all tweets
